

**Problem: Roll Surface problems**

Buying new or refurbishment decision?

**Problem:**

- Surface quality: quality problem due to sticking
- Short lifetime
- High corrosion
- Extremely high wear of the body

**Habets Solution: total roll refurbishment**

Application of innovative HVOF coatings

**Typical advantages:**

- application of HVOF coatings (according to customer requirements) with excellent surface
- excellent corrosion & non sticking protection properties
- extremely wear resistance (lifetime 5 time longer)
- extremely consistent surface
